

Clinical Team Member

Reports To:

Job Summary:

We're seeking a compassionate and skilled Dermatology RN, MA, or LPN with experience or interest in both medical and cosmetic dermatology. The ideal candidate will have a strong clinical foundation in medical dermatology and a genuine enthusiasm for aesthetic procedures. This role offers a unique chance to grow your skills in a supportive, collaborative environment that values both medical expertise and cosmetic innovation.

Key responsibilities:

- **Assist with Medical Dermatology Procedures:**

Support providers during skin exams, biopsies, excisions, cryotherapy, and other minor surgical procedures, ensuring patient comfort and adherence to clinical protocols.

- **Support Cosmetic Treatments:**

Assist providers with aesthetic procedures including liposuction, Accutite, BodyTite, Morpheus8, and injectable treatments (e.g., Botox, fillers), following strict safety and quality standards.

- **Scribe for Providers:**

Accurately document patient encounters, including history, exam findings, treatment plans, and follow-up instructions to allow providers to focus fully on patient care.

- **Patient Education:**

Provide patients with clear explanations about their diagnosis, treatment options, and post-treatment care. Educate patients on daily skin care routines to maintain and improve skin health.

Clinical Documentation:

Maintain accurate and timely patient records, documenting all treatments, procedures, and patient communications in compliance with legal and regulatory standards.

- **Enhance Patient Experience:**

Foster a welcoming, professional environment by demonstrating empathy, patience, and attentiveness. Address patient questions and concerns promptly to ensure satisfaction.

- **Infection Control and Safety Compliance:**

Follow all infection control protocols and safety guidelines to protect patients, staff, and yourself. Ensure proper sterilization and handling of medical instruments.

- **Collaboration and Teamwork:**

Work closely with dermatologists, aestheticians, front office, and other clinical staff to provide seamless patient care and optimize clinic workflow.

- **Professional Development:**

Stay current with advances in dermatologic and aesthetic treatments through continuing education, training sessions, and professional certifications.

Qualifications:

- Licensed Registered Nurse (RN), Medical Assistant (MA), or LPN licensed in Wisconsin
- Experience in medical dermatology strongly preferred; cosmetic dermatology experience or interest a plus
- Excellent communication and patient care skills
- Ability to work effectively within a multidisciplinary, team-oriented environment
- Flexible, proactive, and committed to professional growth in dermatology
